

**Remarks**

The claims are amended to address minor informalities. Specifically, claim 78 is amended to recite a "light source flashing component control instruction" rather than a "light source component control instruction" and claim 105 is amended to recite a "light source control instruction" rather than a "light source instruction" so that the claim terms are consistent with the claim terms providing antecedent bases for the claim terms.

Applicants also hereby amend the "Cross Reference to Related Applications" section of the specification to make reference to applications cross referenced by referenced Application Nos. 08/839,020 and 08/697,913. The present amendment does not include new matter.

If the Examiner believes that contact with applicants' attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call applicants' representative at the phone number listed below.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to deposit Account No. 50-0289.

Respectfully submitted,

WALL MARJAMA & BILINSKI LLP
